## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-4 and 16-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mausawa et al. in view of Krishnamurthy et al. (both of record) for reasons of record.

With respect to newly-added claim 20, it should be noted that ground electrode 39 is formed on the bottom layer 26.

### ***Response to Arguments***

3. Applicant's arguments filed 5/28/02 have been fully considered but they are not persuasive. The applicant argues that a substrate is different from a fired green sheet.

This argument is not persuasive because a substrate is broadly defined as "an underlying layer", which is met by at least layers 28 and 27.

Accordingly, the claims remain rejected.

### ***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 2817

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
